

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of an EUT housing. On the left is a black plastic housing with a yellow PCB board inside. The board has a black battery with white text: "VDA 652830", "80 680mAh", and "2021 10 30". To the right is a black plastic housing with a black PCB board. A black ruler with white markings is placed below the components, showing measurements in millimeters.
Solder Board-Component View 1	 A photograph showing a close-up of a soldered component on a PCB board. The component is a black rectangular chip with gold-colored solder joints. A black ruler with white markings is placed below the component, showing measurements in millimeters.

Solder Board-Component View 2	 A photograph of a small electronic component, likely a SIM card reader or similar interface board, mounted on a blue textured surface. The component is connected to a larger board via gold-colored flexible connectors. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters. The component is positioned between the 10 mm and 50 mm marks on the ruler.
Solder Board-Component View 3	 A photograph of a small electronic component, likely a SIM card reader or similar interface board, mounted on a blue textured surface. The component is connected to a larger board via gold-colored flexible connectors. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters. The component is positioned between the 10 mm and 50 mm marks on the ruler.

Solder Board-Component View 4	 A photograph showing a small, rectangular blue printed circuit board (PCB) component. The board is populated with various electronic components, including a large square chip, several smaller chips, and numerous surface-mount components. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component positioned between the 10 mm and 80 mm marks.
Antenna View 1	 A photograph showing a black, rectangular device with rounded corners, likely a mobile phone or a similar electronic device. A red box highlights a small, rectangular component on the back of the device, labeled "BT/WIFI/GPS Ant". The device is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the device positioned between the 10 mm and 80 mm marks.

Antenna View 2
