ISED compliance statement

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1) L'appareil ne doit pas produire de brouillage;
- (2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

SAR statement

This equipment complies with FCC/ISED radiation exposure limits set forth for an uncontrolled environment. End user must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

The portable device is designed to meet the requirements for exposure to radio waves established by the ISED. These requirements set a SAR limit of 1.6 W/kg averaged over one gram of tissue. The highest SAR value reported under this standard during product certification for use when properly worn on the body.

Cet équipement est conforme aux limites d'exposition aux rayonnements FCC/ISED établies pour un environnement non contrôlé. L'utilisateur final doit suivre les instructions spécifiques pour satisfaire les normes. Cet émetteur ne doit pas être co-implanté ou fonctionner en conjonction avec toute autre antenne ou transmetteur.

Le dispositif portatif est conçu pour répondre aux exigences d'exposition aux ondes radio établie par le développement énergétique DURABLE. Ces exigences un SAR limite de 1,6 W/kg en moyenne pour un gramme de tissu. La valeur SAR la plus élevée signalée en vertu de cette norme lors de la certification de produit à utiliser lorsqu'il est correctement porté sur le corps.

Risk of explosion if the battery is replaced by an incorrect

disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an

leaving a battery in an extremely high temperature surrounding environment that can result in an explosion or

result in an explosion or the leakage of flammable liquid or

Non-compliance with the above restrictions may result in violation of RF exposure guidelines.

Use Restriction: This device is restricted to indoor use when operating in the 5150 to 5250 MHz frequency range.

This equipment complies with Directive 2014/53/EU radiation exposure limits set forth for an uncontrolled environment. End user must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or

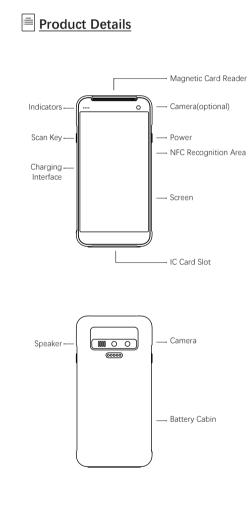

operating in conjunction with any other antenna or transmitter. The portable device is designed to meet the requirements for exposure to radio waves established by European Union market (France).

explosion;

the leakage of flammable liquid or gas;

a battery subjected to extremely low air pressure that may

- conditions.
- Do not place terminal together with computer disc, credit card, travel card or any other magnetic items; otherwise, the information stored in magnetic cards will be affected.
- Do not place the terminal in fire.
- Do not disassemble the terminal or any accessories by
- Please use a moist and anti-static cloth to clean the terminal screen.
- Warning: Please replace the batteries with the same type and rating to avoid battery explosion.
- Do not expose the battery in strong direct sunlight, near heat sources or any similar conditions.
- Please recycle or dispose of old, weak, or worn batteries in accordance with local, regional, or national law or
- Do not use detergent with chemical or scrub particle which may damage the terminal body or screen.

- Please keep the terminal in a safe place and avoid crush or squeeze that may cause a damage on screen or camera.
- When the user use the third party's root tool or update with unauthorized operation system, it will bring risk to the normal operation system.
- The maximum operating temperature of the product should not exceed 40°C.
- Product battery should not be placed in an overheated environment

FCC Statement

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

- This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received. including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- —Reorient or relocate the receiving antenna.
- —Increase the separation between the equipment and
- -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- —Consult the dealer or an experienced radio/TV technician for help.

This device has been tested and meets the FCC SAR limit demand
