Input	5V/2A, 9V/2.2A	output	15W/10W/7.5W/5W

4 Matters needing attention:

- ①Please use a qualified fast charging power adapter (recommended to use PD 18W or higher power), otherwise it may cause unstable charging**
- ②Please do not place metal debris or magnetic cards on this product as it may cause damage or abnormal charging**
- ③Do not forcefully pull the charging cable to avoid the power cord breaking or falling off**
- ④Please do not disassemble or put this product into fire or water by yourself to avoid short circuit and leakage**
- ⑤Do not use this product in severely high-temperature, humid, or corrosive environments to avoid damaging the circuit and causing leakage**

5 FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.**
- Increase the separation between the equipment and receiver.**
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.**
- Consult the dealer or an experienced radio/TV technician for help.**

FCC RF exposure statement:

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator your body.
