RE: Agere Systems Nederland B.V.

FCC ID: IMRWLPCE2411R - Permissive Change

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) Photographs were only provided for the WLE-DA Antenna. Please provide clear photographs of the 2nd antenna model WLE-NDR given in this application.
- 2) The WLE-DA antenna was tested with a 3 meter cable length. Please explain how the final product will always ensure that a minimum of 3 meter cable length is provided. Also, please provide similar information for the 2nd antenna.
- 3) It is not clear if you desire to add 2 different type antennas, or similar antennas with different gains. If the antenna's are of different types, then data should have been provided for both. Please provide additional information regarding type and/or part and model numbers, and gain for the antenna's proposed.

Timothy R. Johnson
Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
