Specifications DE: Spezifikationen FR: Spécifications ES: Especificaciones IT: Specifiche RU: Характеристики JP: 仕様 CN: 产品参数 AR: مواصفات NL: Specificaties SE: Specifikationer PL: Specyfikacje TR: Şartname BP: Especificações Product Name 3-in-1 Magnetic Wireless Charger Input 5.0V/3.0A/9.0V/3.0A/12.0V/2.5A Wireless Charging 25W Max (Phone 15W, Apple Watch/AirPods 5.0W) Total Output Power Wireless Charging Working Frequency 30kHz-110kHz, 148.5kHz-245.5kHz & 1.778MHz Is-Field Strength 待機電圧利用性能 Wireless Charging Principle Transmitting wireless electrical power over short distances through electromagnetic induction The data are measured by UGREEN lab but may vary based on specific circumstances. FCC Declaration of Conformity This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation. Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. FCC Radiation Exposure Statement This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. FCC NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. The equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: —Reorient or relocate the receiving antenna. —Increase the separation between the equipment and receiver. —Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. —Consult the dealer or an experienced radio/TV technician for help. This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance of 20 cm between the radiator and your body.	UK CA GB Declaration of Conformity Hereby, Ugreen Group Limited declares that the product is in compliance with Directive 2014/53/EU and 2011/65/EU (RoHS 2017 No. 1226/8) The Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment Regulations 2012 (SI 2012 No. 3032).
