Ref: FCC Class II Permissive change for FCC ID: 2AOKB-A3117

Applicant: Anker Innovations Limited

Dear Examiner,

This is to request a Class II Permissive change for FCC ID: 2AOKB-A3117 originally granted on September 3, 2020 (date).

The change under this application is to:

- Update applicant address, manufacturer address and factory and factory address.
- A resistor and capacitor is cancelled, and two magnetic beads are changed into 0 ohm resistors in the charging circuit part.
- A magnetic ring is added to that flat cable between the interface board and the motherboard.

Based on the above changes, updated Radiated Spurious Emission and AC Power Line Conducted Emission.

I attest that the certified device will not be capable of ad-hoc mode operation outside of the grant conditions.

Sincerely,

(Signature of applicant)
