Declaration Letter for Subordinate Devices

We, **Netgear Incorporated**, attest that this device under **FCC ID: PY323200598** complies with device protocol requirements and operational restrictions for Subordinate Devices.

- a) Subordinates cannot act as a standalone master device as defined Section 15.202 and must act as a contingent device under Section 15.202 subservient to an indoor access point within the same building or structure.
- b) The subordinate passively scans or listens in the U-NII-4 or U-NII -3 & -4 span channels for an indoor access point available channel. The subordinate is permitted to initiate a brief probe message requesting to join and associated with a specific access point.
- c) This Subordinate device operates in the 5.850-5.895 GHz band. It is supplied power from a wired connection, has an integrated antenna, is not battery-powered, does not have a weatherized enclosure, and has no direct connection to the internet.
- d) We acknowledge this device is subject to and in full compliance with the device restrictions for Subordinate devices listed below:
 - This device is for indoor use only. Subordinate device operating in the 5.850-5.895 GHz band shall be supplied power from a wired connection, has an integrated antenna, is not battery powered, and does not have a weatherized enclosure.
 - When configured for subordinate mode, this device has no direct connection to the internet. WAN port function is disabled and automatically software configured to operate as a LAN port only. This process does not require user intervention nor is it user configurable.
 - This device is prohibited for control of or communications with unmanned aircraft systems including drones.
 - This device bears the following statement in a conspicuous location on the device and the user's manual: *"FCC regulations restrict the operation of this device to indoor use only."*
 - The user's manual additionally warns users that this device cannot be used to provide connections between separate buildings or structures.
