

Solder Board-Component View 5	 A photograph showing a small electronic component, a black PCB with gold-plated pins, mounted on a blue textured surface. A black L-shaped ruler is placed next to the component for scale. The component has a white connector with red and black wires. The ruler shows measurements in millimeters and centimeters.
Solder Board-Component View 6	 A photograph showing a small electronic component, a black PCB with gold-plated pins, mounted on a blue textured surface. A black L-shaped ruler is placed next to the component for scale. The component has a white connector with red, green, and black wires. The ruler shows measurements in millimeters and centimeters.

Solder Board-Component View 7	 A photograph of a green printed circuit board (PCB) component, labeled '220516', showing various electronic components including a large square chip, several smaller chips, and surface-mount components. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.
Solder Board-Component View 8	 A photograph of a green printed circuit board (PCB) component, showing various electronic components including a large square chip, several smaller chips, and surface-mount components. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.

Solder Board-Component View 9	 A photograph of a green printed circuit board (PCB) component, labeled '220516', placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the component, showing measurements in millimeters from 0 to 100. The component is rectangular with various electronic components, including a large integrated circuit, resistors, and capacitors, all soldered onto the board.
Solder Board-Component View 10	 A photograph of a black printed circuit board (PCB) component, labeled 'LOCKLY', placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the component, showing measurements in millimeters from 0 to 100. The component is rectangular with various electronic components, including a large integrated circuit, resistors, and capacitors, all soldered onto the board. The board has several mounting holes and a central slot.

Solder Board-Component View 11	 A photograph of a black printed circuit board (PCB) component, labeled 'Solder Board-Component View 11'. The component is rectangular with several circular solder pads and a central square component. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Solder Board-Component View 12	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 12'. The component is small and rectangular, featuring a central square component and several solder pads. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
