Notice_content

Question #1: What is the actual frequency range for this device ?

Question # 2: The peak and average limits used for 15.205 restricted band emission are not correct (page 48-50). Please provide revised test report.

Question #3: The user manual does not contain RF exposure information. Suggest wording can be "IMPORTANT NOTE: To comply with FCC RF exposure compliance requirements, antenna installation and device operating configuration described in this user manual must be satisfied. The antenna(s) used for this device must be fixed-mounted on outdoor permanent structures with a separation of at least 1.5 meters from all persons during normal operation.". Please provide revised user manual.

Question #4: Please address 15.407(c) requirements.

Best Regards

Mike Kuo / TCB Certifier

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 60 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
