RE: FCC ID: PPIRH-37_ATCB001413

Attention: Jukka Pekkala

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. FYI - Please note that item 4b of the 731 states the device is applying for part 22 also. However, please note that the frequency range, power, frequency, tolerance and emissions designator for the part 22 has not been provided. Please also note that the operational description states the device operates in the 900 MHz GSM band and not the part 22 850 MHz band.
2. Please note that there is a shielded area at the top of the board shown in the second internal photo (see page 2 of the internal photo exhibit). Please provide a photo of what is underneath the shielding.
3. Please note that the SAR reports does not contain the required measurement data plots. While the report states the plots begin at a certain page, they do not appear to have been included. Please provide the required EUT test data plots.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
