

Please read the
guide carefully before using

Please scan the QR code below with your mobile phone to download the latest version of P6SLite APP directly.

P6SLite

Page 1/15

The screenshot shows the PEXLife app interface. The top section is a login form with fields for 'Email or phone number' and 'Password', a 'Forgot Password?' link, and a 'Login' button. Below the login form is a 'Sign up' button. The bottom section displays a list of countries under the heading 'Welcome to PEXLife'. The countries listed are Canada, Kazakhstan, Thailand and Tokyo, United States (Hawaii), United States (Maine), United States (New York), United States (Oregon), United States (Texas), and United States (Virginia). Each country has a corresponding flag icon and a 'Select country' button.

1. Click Add Device, select "Add Wifi Device" to reset the device.

Figure 1 shows two screenshots of the QR code distribution interface. The left screenshot is titled 'Select a distribution network' and prompts the user to 'Please select the appropriate network, distribution method and click Continue'. It features two main options: 'Scan code distribution network' (with a blue icon and a red 'Select' button) and 'QR transport distribution network' (with a green icon and a red 'Select' button). The right screenshot is titled 'Scan QR code' and displays a large QR code. Below the QR code, it says 'Please scan the QR code with your mobile phone' and 'Please scan the QR code with the QR code scanner in the mobile phone'. At the bottom, there is a blue button labeled 'Scan the QR code'.

FCC Statement

Warranty card

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. Example— use only shielded interface cables when connecting to computer or peripheral devices.

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement:

The equipment complies with FCC Radiation exposure limits set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
