

Model difference letter

2020.07.30

Dear MET Reviewer,

This is a new Application from **TYLT, inc.**

Model No.: QIBOWLWD-T, QIBOWLxx-T (where xx can be different colors)

Only the model QIBOWLWD-T was tested, since the electrical circuit design, layout, components used and internal wiring were identical for the above models, with difference being color of appearance and model name.

Thank you for your cooperation!

Yours sincerely,

Signatory:
