RE: FCC ID: QTLRM-75_ATCB002743
Attention: Hailun Shi

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please provide the manual with all appropriate FCC/IC statements. Please note that more questions may arise once the manual has been provided and reviewed.
2. FYI – since this is not a composite application for a computer peripheral no action is needed. However, please note that in the part 15B test report you state that the average readings were done with a RBW of 1MHz. The device does appear compliant to the limits, but the analyzer settings mentioned do not appear to be setup for average measurements. How this is a average measurement?

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
