

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of a device. On the left is a green printed circuit board (PCB) populated with various electronic components, including a large silver heat sink, a black integrated circuit, and several smaller components. A black cable is connected to the top of the board. To the right of the PCB is a black plastic housing with a circular cutout. Both items are placed on a blue textured surface next to a black ruler with white markings in millimeters and centimeters.
Solder Board-Component View 1	 A photograph showing a close-up of a green PCB component. The component features a large silver heat sink, a black integrated circuit, and several smaller components. A yellow ribbon cable is connected to the top of the board. The component is placed on a blue textured surface next to a black ruler with white markings in millimeters and centimeters.

Solder Board-Component View 2	 A photograph of a green printed circuit board (PCB) labeled 'VT81-MB-V2.2' and '2103-0064'. The board is populated with various electronic components, including a large square component labeled 'GUHSGPJ0' and a smaller component labeled '2104'. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.
Solder Board-Component View 3	 A photograph of the same green PCB from a different angle. This view shows the underside of the board, revealing components like a large silver component labeled '5120' and a smaller component labeled 'VT81-MB-V2.2'. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.

Solder Board-Component View 4	 A photograph showing the solder side of a green printed circuit board (PCB) with various electronic components. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The PCB has a label 'VT81-MB-V2.2' and '5120' printed on it. Several colored wires (red, yellow, blue, black) are connected to the top of the board.
Antenna View	 A photograph showing the antenna side of the green PCB. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The PCB has a label 'VT81-MB-V2.2' and '5120' printed on it. A red box highlights a specific area on the board, which is labeled 'GSM/LTE Ant.' with a red arrow pointing to it. Several colored wires (red, yellow, blue, black) are connected to the top of the board.
