**Request for Tech. Info.: 11/11/2005**

Dear Steven:

Transmitted herewith, on behalf of **Panasonic Corporation of North America** is an amendment provided in response to the request for technical information dated November 11, 2005.

1. The applicant requested a series of GSM Body SAR tests with different spacing to help with a future accessory design. The original application contains a body SAR test closer than 1.5 cm on channel 251. The applicant is aware of this issue and willing to accept the higher SAR value on the grant of authorization.
2. Please note that there was a typo on page 2 of the Re-Evaluated Data. The corrected page is attached.

We trust this information is sufficient to resolve FCC questions in this application. If you have any further questions, please do not hesitate to contact us.
