Power Output listed is Conducted. Modular Approval. The antenna used with this module must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. Only the antenna(s) tested in this filing may be used with the transmitter. The use of an antenna other than shown in the filing requires a PC2. This module may only be installed by the OEM or an OEM integrator. Compliance of this module in its final configuration is the responsibility of the Grantee. Installation instructions for this module may not be provided to the end user. End-users and installers must be provided with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance.

CE: This device has shown compliance with the conducted emissions limits in 15.107, 15.207, or 18.307 adopted under FCC 02-157 (ET Docket 98-80). The device may be marketed after July 11, 2005, and is not affected by the 15.37(j) or 18.123 transition provisions.
