How to connect your smart bulb through Matter

Want to connect your device to other apps that support the Matter protocol, like Amazon Alexa, Apple Home, Google Home, SmartThings or others? Here's how:

1. Use your phone's scanning function to scan the QR code located below or manually enter the pairing code that comes with it.

2. Make sure the Matter QR code on the scanning sticker matches the one on the device you want to connect to the network. Check the diagram below for reference.

3. For more detailed instructions on adding devices to apps that support the Matter protocol, please refer to the manufacturer's app guide.

Resetting your smart bulb

To reset your smart Wi-Fi bulb, first turn it on and then turn it off and on swiftly six (6) times, until the light flashes quickly. For better results, use a mechanical switch (i.e., a light switch or power bar).

Cómo conectar tu bombillo usando Matter

¿Quieres conectar tu dispositivo a otras aplicaciones compatibles con Matter, como Amazon Alexa, Apple Home, Google Home, SmartThings u otros? Aquí te explicamos cómo hacerlo:

1. Con tu teléfono, escanea el código QR ubicado abajo, o ingresa manualmente el código de emparejamiento que lo acompaña.

2. Asegúrate de que el código QR de Matter en el sticker de escaneo coincida con el del dispositivo que deseas conectar a la red. Consultar el diagrama a continuación como referencia.

3. Para obtener instrucciones más detalladas sobre cómo agregar dispositivos a aplicaciones compatibles con Matter, revisa la guía de la aplicación proveída por el fabricante.

Cómo reiniciar tu bombillo

Para este proceso, primero enciende el bombillo y luego enciéndelo y apágalo rápidamente seis (6) veces, hasta que la luz comience a parpadear rápidamente. Para mejores resultados, usa un interruptor mecánico (como un interruptor de luz o una regleta).

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
