Subject: Use of ME910C1-NA documentation and FCC reports

Dear Sir or Madam:

Telit authorizes integrator/customer ConnectDER to use the ME910C1-NA construction documentation (schematics, BOM, Block diagrams, etc.) and the FCC reports, that must remain permanently confidential, for FCC certification of their Smart ConnectDER product.

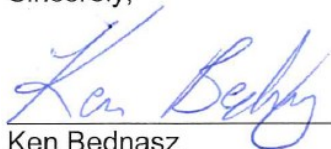

FCC ID: RI7ME910C1NA

ConnectDER may use MPE, part 15, 22, 24, 27 test reports along with all necessary documentation pertinent to Telit radio module ME910C1-NA and is authorized to use the company name "Telit", product name "ME910C1-NA" solely for the certification process of Smart ConnectDER which have the Telit ME910C1-NA embedded.

The Test Reports supplied by Telit to the FCC for our submission for grant are still representative of ME910C1-NA manufactured today.

If you have any questions or concerns feel free to contact me.

Sincerely,

Ken Bednasz
Vice President of Application Engineering
