Subject: Information pursuant to Section 2.1046-2.1057 and photographs

RE: FCC ID O2SNURIT3010C Applicant: Lipman USA, Inc. FCC Correspondence No. 16411 731 Confirmation No. EA98583 Date of Original e-mail 10/03/2000

Dear Mr. Dichoso

The following items are in response to your e-mail requesting for information pursuant to Section 2.1046-2.1057 and photographs.

 Information pursuant to Section 2.1046-2.1057 must be submitted. If this device is using a transceiver that is identical (no changes) to a previously approved device, you can submit copies of the previous test report. The information is needed to complete the file.

Response: Attached please find the copies of the test data from the previous test report for the following tests under Exhibit 12 (being uploaded with this response):

- 2.1047: Modulation
- 2.1049: Occupied bandwidth
- 2.1051: Spurious Emissions at antenna terminal
- 2.1055: Frequency Stability

The test data for the following tests have been submitted with the filing of the EA98583, Lipman, USA, Inc.:

2.1046: ERP, please see ERP report, Exhibit 2

- 2.1053: Field strength of spurious radiation, please see spurious emissions report, Exhibit 2
- 2.1057: Frequency spectrum to be investigated, this has been followed for all measurements

The above informations are presented for completeness of the file.

2. Photos of both sides of all boards without shielding must be submitted. It appears that photos of only one side of internal boards were submitted.

Response: A set of new photographs showing the other side of the boards is submitted with this response.

Note: A revised manual (Users Guide) including the bystander distance warning and no more than one transaction in any 3 second time period statement is also being uploaded with this response.

Thanking you in advance for your kind cooperation.

Best regards.

Jay Sarkar
