

IPRO F184 Quick Starter Guide	IPRO  Quick Starter Guide	1. CHARGE BEFORE POWERING ON IN CASE OF LOW BATTERY  2. INSERT SIM CARD Insert the Sim card 	3. FM RADIO  (((•))) Built in Antenna 4. AUDIO PLAYER 1. Insert the micro SD card 	2. Connect the phone with the computer via USB.  
3. Copy and transfer music files  4. Enjoy the audio player 5. 3D s tereo s ound 	6.the cell broad cast  Enter Message menu to view Broadcast list The purpose of cell broadcasting is to inform mobile phone users of the danger, such as serious threats, child abduction and so on, through some alerts issued by operators,the function is activated by default FCC Warning Specific Absorption Rate (SAR) information SAR tes ts are conducted using standard operating positions accepted by the FCC with the phone transmitting at its highest certified power level in all tested frequenc y bands, although the SAR is determined at the high est certified power level, the actual SAR level of the phone while operating can be well below the maxim um value, in general, the closer you are to a wireles	s base station antenna, the lower the power output. Before a new model phone is available for sale to the public, it must be tested and certified to the FCC that it does not exceed the exposure limit establishe d by the FCC. Tests for each phone are performed i n positions and locations (e.g. at the ear and worn o n the body)as required by the FCC. For body worn operation, this mobile phone has bee n tested and meets the FCC RF exposure guideline s when used with an accessory designated for this p roduct or when used with an accessory that contain s no metal and that positions the handset a minimu m of 0.5mm from the body. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference rec eived, including interference that may cause undesir ed operation. Any Changes or modifications not exp ressedly approved by the party responsible for complia nce could void the user's authority to operate the eq uipment.	Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pu rsuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against h armful interference in a residential installation. This equipment generates uses and can radiate radio fre quency energy and, if not installed and used in acco rdance with the instructions, may cause harmful inte rference to radio communications. However, there is no guarantee that interference will not occur in a par ticular installation. If this equipment does cause har mful interference to radio or television reception, wh ich can be determined by turning the equipment off and on, the user is encouraged to try to correct the i nterference by one or more of the following measur es: --Reorient or relocate the receiving antenna. --Increase the separation between the equipment an d receiver. --Connect the equipment into an outlet on a circuit di fferent from that to which the receiver is connected. --Consult the dealer or an experienced radio/TV tec hnician for help.
