9. Speaker	Speaker output is automatically muted when using headphone jack.

Charging the Tablet

The Tablet comes with a built-in rechargeable lithium-polymer battery. It is recommended to fully charge the battery before first use.

Charge the Battery

- Connect the power adapter to an electrical socket.
- Insert the DC jack end to the power slot on the Tablet.
- Disconnect the power adapter when the Tablet is fully charged.
- If the Tablet is powered off, it will charge until the battery is full.
- If the Tablet is powered on, the battery charge status will be indicated on the screen by the battery meter.

Battery is full

Battery is discharging

Battery is charging

- When the Tablet is connected to a computer via the USB cable, the battery will charge via the USB socket, but at a much slower rate than via the DC 5V power adapter.
- ⚠ Do not use any other power adapters than the one supplied. Using an incompatible power adapter could damage the Tablet and poses the potential risk of fire.**

Memory Expansion with Micro SDHC Memory Card

Your tablet features a 16 GB built-in flash memory, which can be expanded using a Micro SD card (not included). You may use any Micro SD or Micro SDHC card, up to 32GB capacity.

To use the memory card as media storage, transfer media files (videos, music and photos) from your computer to your micro SD card in the usual way, and then insert it into the Tablet as described below.

To insert and use a Micro SD card

- Slide the memory card with the card slot. The metal contacts of the memory card should face up towards the LCD screen.
- Slide the card into the spring-loaded slot. Push the card in, until it clicks into place.
- ⚠ Do not attempt to insert objects other than a micro SDHC memory card into the card slot. A compatible memory card should slide easily into the card slot. If you encounter resistance, check the alignment of the card. Do not attempt to force the card in.**

To Remove a Memory Card

- UNMOUNT** the memory card.
 - From the Home screen, tap the **Menu** key, and then tap **Setting/Storage** to go to the storage menu.
 - Tap **Unmount SD card** to prepare the memory card for safe removal.
- Push the card further into the slot until you hear a click. The card will spring out of the slot.
- Grasp the card by its edge to remove it.

Federal Communications Commission (FCC) Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications made to this device not expressly approved by EBSCO Industries Inc., DBA PRADCO Outdoor Brands may void the FCC authorization to operate this device.

Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.
