感谢您购买了HiBy推出的便携HiFi高通骁龙高性能 播放器RS8。为了让RS8给您带来更好的体验,这份 说明书将介绍RS8的功能和使用方法,希望让您更

Specific Absorption Rate(SAR) informationThis device meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientifstudies. The standards include a substantial safety margin designed to assurethe safety of all persons regardless of age or health. FCC RF ExposureInformation and Statement the SAR limit of USA(FCC) is 1.6 w/kg averagedover one gram of tissue Device types: Music Player(FCC ID: 2AOBQ HIBYRS8) hasalso been tested against this SAR limit. This device was tested for typical body-worn operations with the back of the device kept 10mm from the body Tomaintain compliance with FCC RF exposure requirements, use accessories that maintain a 10mm separation distance between the user's body and the back of the phone. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposurer equirements, and should be
