The marking information is located at the bottom of apparatus

CAUTION

Risk of explosion if battery is replaced by an incorrect type.

Replacement of a battery with an incorrect type may cause a subsequent

Disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery,

that can result in an explosion.

Leaving a battery in an extremely high temperature surrounding environment that can result in

an explosion or the leakage of flammable liquid or gas.

A battery subjected to extremely low air pressure that may result in an explosion or the

leakage of flammable liquid or gas.

This device contains lithium-ion and nickel-metal hydride batteries that contain volatile materials. Operation is subject to the following two conditions:

(1) This device may not cause interference.

(2) This device must accept any interference, including interference that may cause undesired operation of this device.

(1) Operation of this device through the antenna system does not prevent operation of another device.

(2) If the device is used in a manner that is not approved by the manufacturer, the user is responsible for any interference.

(3) If the device is used in a manner that is not approved by the manufacturer, the user is responsible for any interference.

(4) If the device is used in a manner that is not approved by the manufacturer, the user is responsible for any interference.

(5) If the device is used in a manner that is not approved by the manufacturer, the user is responsible for any interference.

(6) If the device is used in a manner that is not approved by the manufacturer, the user is responsible for any interference.

(7) If the device is used in a manner that is not approved by the manufacturer, the user is responsible for any interference.

(8) If the device is used in a manner that is not approved by the manufacturer, the user is responsible for any interference.

(9) If the device is used in a manner that is not approved by the manufacturer, the user is responsible for any interference.

(10) If the device is used in a manner that is not approved by the manufacturer, the user is responsible for any interference.

IC warning RF exposure warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

SPECIFICATION

Bluetooth version: V5.0

Bluetooth range: approximately 10 meters

Bluetooth profile support: A2DP , AVRCP , HFP , HSP

Audio CODEC support: SBC

Battery life: up to 4 hours/time, additional 12 hours with charging case

Driver unit: 6mm dynamic driver

Frequency response: 20 - 20,000Hz

Water resistance rating: IPX4 (for earbuds only)

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

WARNING: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

The device must not be co-located or operating in conjunction with any other antenna or transmitter. This device complies with FCC's radiation exposure limits set forth for an uncontrolled environment.
