SUBJECT: Class II Permissive Change Request for:

Applicant: **Espressif Systems (Shanghai) Co., Ltd.**

Device: **Radio module, 802.11 (b/g/n), Bluetooth v4.2 BR/EDR and BLE specifications**

Model: **ESP32-WROVER-E, ESP32-WROVER-IE**

FCC ID: **2AC7Z-ESP32WROVERE**

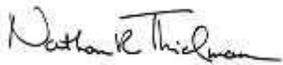

Original Grant date: **April 13, 2020**

Dear Examiner,

For the above indicated device and pursuant 47 CFR §2.1093, we hereby request the evaluation of an FCC Class II permissive change as described below.

The main change in the modular approval conditions granted to our module will be as follows: the module will be used in portable exposure conditions. The radio module is unchanged when integrated in the host, and the BT Classic (Bluetooth v4.2 BR/EDR) specification is disabled. The radio is compliant to 47 CFR §15.247.

Sincerely,

Nathan R. Thielman

On Behalf Of: Espressif Systems (Shanghai) Co., Ltd.
