Re: Class II Permissive Change:

Gentlemen:

The purpose of the attached materials is for a Class II Permissive Change to the YDI Marquee Bridge (FCC ID NM5-MB-HP).). It is a spread spectrum transmitter that operates in the range 5725-5850MHz. The following are the changes::

- 1) The addition of three new parabolic antenna models:
 - a. Gabriel QF2-52-N-RK
 - b. Gabriel QF2.5-52-N
 - c. Gabriel QF4-52-N
- 2) The addition of a new power supply: CINCON model TR70A4801A03
- 3) A new case gasket.

Sincerely,

A handwritten signature in black ink, appearing to read "Evan Gould". The signature is fluid and cursive, with a large initial "E" and "G".

Evan Gould
EMC Engineer
