

Bay Area Compliance Laboratory Corp.

July 26, 2002

**Federal Communication Commission
Authorization and Evaluation Division**

New Operational Description for FCC ID: MCLT60H563

To Whom It May Concern:

Due to unclear thinking, one of two operational description exhibits submitted on July 18 was wrong. We found this mistake when we were doing quality control later. Please use the one uploaded on July 26 to replace the wrong one. The other one with the title "Antenna Information" is correct. Please keep it.

We are very sorry for any possible confusion and inconvenience.

Yours truly,

A handwritten signature in black ink, appearing to read "John Chan", written in a cursive style.

John Chan
Engineering Manager
