Subject: Request permission to use Wi-Fi Conducted / Bluetooth Conducted / GSM Conducted/WCDMA Conducted /LTE Conducted test results from model 7043A in our applications for model 7044A

FCC ID: RAD538

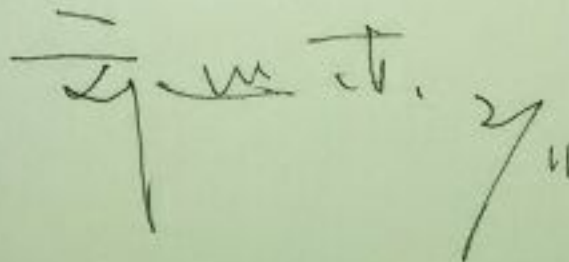

To whom it may concern:

We request permission to use Wi-Fi Conducted / Bluetooth Conducted / GSM Conducted/ WCDMA Conducted /LTE Conducted test results from model 7043A (FCC ID: RAD530).
in our applications for model 7044A (FCC ID: RAD538).

Models 7044A and 7043A have the same Main components. And the two models use the same Wi-Fi / Bluetooth chipset/module and operate using the same transmit power levels. Although the antenna is changed and the PCB is re-designed (Flash LED driver IC and Flash LED driver change, and some capacitors and traces which are around the Flash LED changed), only Radiated test results can be influenced and the Conducted test results cannot be influenced.

Sincerely,

Date: 2015-02-11
