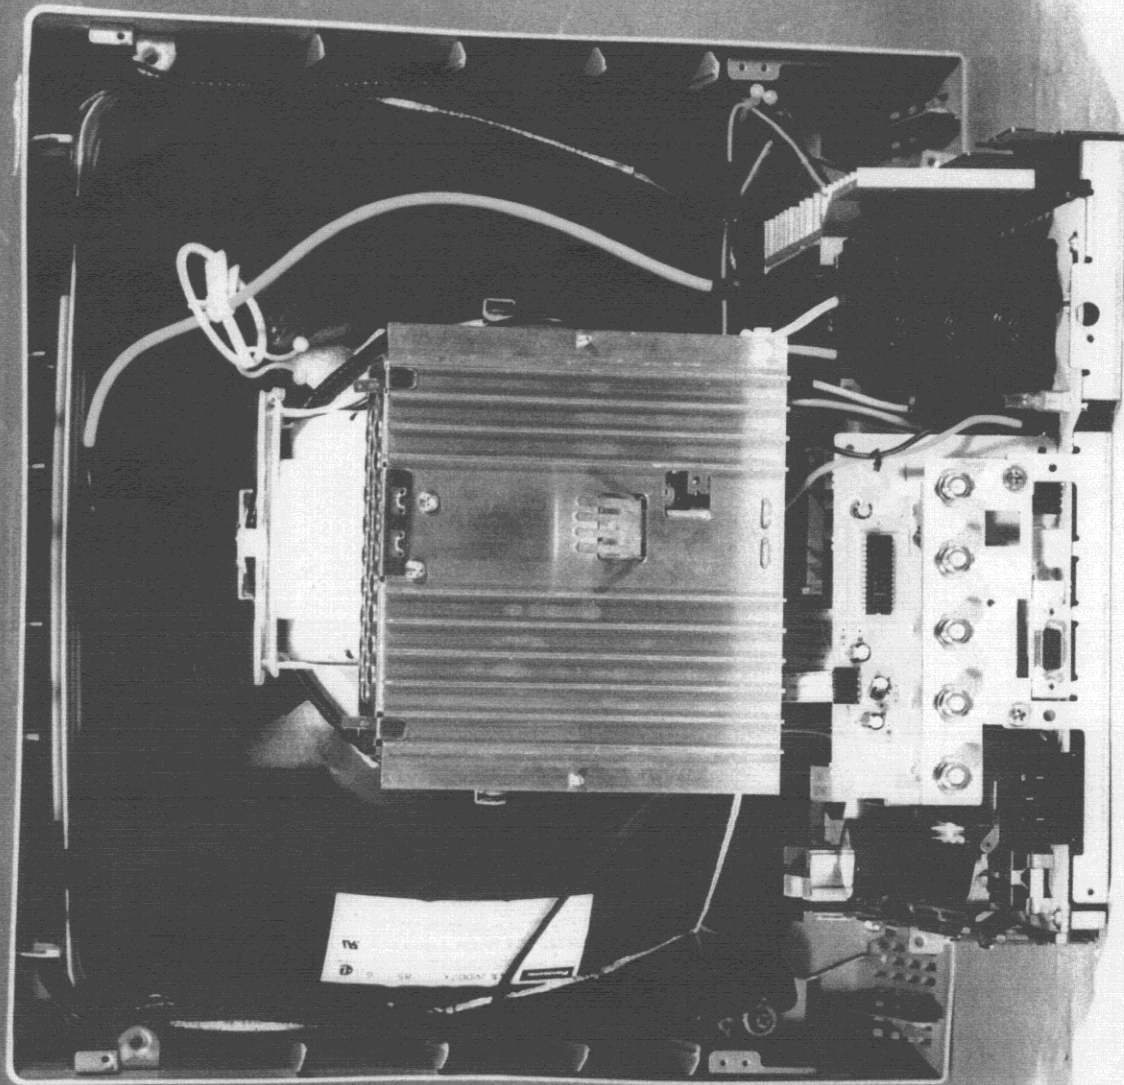

Photo 5. Inside view without shield case of VLCD521419-1*

A black and white photograph of a complex, multi-layer printed circuit board (PCB) assembly. The board is densely populated with numerous small, circular components, likely surface-mount devices or through-hole components, arranged in a highly organized pattern. The board features intricate copper traces and vias. A large, rectangular component, possibly a microcontroller or memory chip, is visible near the center. The board is labeled with "TNP10257" and "FC8706".
