A photograph of a green printed circuit board (PCB) with intricate circuitry. The board is oriented vertically. On the left edge, there is a silver-colored connector strip with the text "68FYCC-0M06 H0104 JAPAN 024" printed on it. The PCB features a complex network of green conductive traces, including a large central loop and various peripheral lines. Numerous small circular pads are distributed across the surface. Two rectangular gold-colored pads are visible on the right side. A small, dark, rectangular component is mounted on the right edge. The board is set against a dark blue, textured background.
