

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

**EUT Housing and Board
View 1**

**EUT Housing and Board
View 2**

Solder Board-Component View 1	 A photograph showing a small electronic component, likely a solder mask or a small PCB, placed on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler has two scales: one in millimeters (0 to 100 mm) and one in centimeters (0 to 10 cm). The component is approximately 10 mm long and 5 mm wide. It features several gold-colored pads and a small rectangular area with some text.
Solder Board-Component View 2	 A photograph showing the same electronic component from a different angle, placed on the same blue textured surface. The component is positioned next to the same black ruler with white markings. The ruler has two scales: one in millimeters (0 to 100 mm) and one in centimeters (0 to 10 cm). The component is approximately 10 mm long and 5 mm wide. It features several gold-colored pads and a small rectangular area with some text.

Solder Board-Component View 3	 A photograph of a printed circuit board (PCB) component, likely a camera module, showing the solder side. The component is black with various electronic components and a large central lens area. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters, with markings from 0 to 100 mm visible.
Solder Board-Component View 4	 A photograph of the same PCB component from a different angle, showing the solder side. The component is black with various electronic components and a large central lens area. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters, with markings from 0 to 100 mm visible.

Solder Board-Component View 5	 A photograph of a small, rectangular printed circuit board (PCB) assembly, labeled 'Solder Board-Component View 5'. The board is populated with various electronic components, including a large central chip, several smaller integrated circuits, and numerous surface-mount components. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters, with the board spanning approximately 40mm in width and 30mm in height.
Solder Board-Component View 6	 A photograph of a small, rectangular printed circuit board (PCB) assembly, labeled 'Solder Board-Component View 6'. The board is populated with various electronic components, including a large central chip, several smaller integrated circuits, and numerous surface-mount components. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters, with the board spanning approximately 40mm in width and 30mm in height.
