| <div>Solder<br/>Board-Component<br/>View 2</div> |  A photograph of a small green printed circuit board (PCB) component, identified as a solder board component in View 2. The component is rectangular and features a USB-A connector on the left side. It is populated with various electronic components, including a large integrated circuit (IC) in the center, several smaller surface-mount components, and a gold-colored spring-loaded connector on the right side. The component is placed on a blue textured surface next to a black L-shaped ruler with white markings in millimeters. The ruler shows dimensions of approximately 20 mm by 20 mm for the component. |
| <div>Solder<br/>Board-Component<br/>View 3</div> |  A photograph of the same green PCB component, identified as a solder board component in View 3. This view shows the component from a different angle, highlighting the USB-A connector and the gold-colored spring-loaded connector. The component is placed on a blue textured surface next to a black L-shaped ruler with white markings in millimeters. The ruler shows dimensions of approximately 20 mm by 20 mm for the component.                                                                                                                                                                                     |

|                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| <p>Solder<br/>Board-Component<br/>View 4</p> |  <p>A photograph showing a green printed circuit board (PCB) component with a USB connector and a small antenna. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10).</p>                                                  |
| <p>Antenna View</p>                          |  <p>A photograph showing the underside of the PCB component, revealing three antennas. Red lines connect labels to the antennas: 'WIFI/BLE 1 Antenna' points to the top-left antenna, '433MHz RX Antenna' points to the top-right antenna, and 'BLE 2 Antenna' points to the bottom antenna. The component is placed on a blue textured surface.</p> |
