Subject: Cover Letter for FCC application for Certification

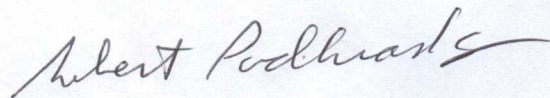

To whom it may concern:

This Model SM 100 is a Limited Modular Digital Transmission System operating in the 2.4GHz ISM band. It is used only in the Garrett Metal Detectors Model PD6500i walk-through security metal detector and receives power and control signals from the PD6500i. It is installed and maintained by Garrett Field Service personnel.

This is to seek an original Limited Modular Certification on the Model SM 100 as compliant with FCC 15.247.

FCC ID: DBDSM100-00000

Sincerely,

Robert Podhrasky
Sr. VP, COO
