

QUICK SETUP GUIDE

10W Qi Dash Mount

NS-MWPC10DM / NS-MWPC10DM-C

PACKAGE CONTENTS

- Qi smartphone holder
- Dashboard mount
- Vent mount
- Car charger
- Quick Setup Guide

COMPATIBILITY

Wirelessly charges most Qi-enabled smartphones **2–3.8 in. (5–9.6 cm) wide**. Compatible models include Samsung Galaxy Note 5, Note 7, Note FE, S6, S6 Edge+, S6 Active, S7, S7 Edge, S7 Active, S8, S8+, S8 Active, S9, S9+, S Lite, S10, S10+, S10e, iPhone 8, iPhone 8 Plus, iPhone X, iPhone XS, iPhone XS Max, iPhone XR and other Qi-enabled smartphones.

Note: Not all smartphones can receive a Wireless Fast Charge. However, they will still receive a standard wireless charge. Check your phone's charging features to see if it has Fast Charge capabilities.

FEATURES

- Suction cup with adhesive securely holds your phone to a vehicle's dashboard
- Ball socket joint provides a wide, 210° range of motion that holds your phone vertically or horizontally
- Wireless design lets you charge your phone without cumbersome cords
- Car charger includes an extra USB port to charge other devices
- 10W Qi-certified to work with most Qi-enabled smartphone devices (from **2–3.8 in. (5–9.6 cm) wide**), including Apple and Samsung

SETTING UP YOUR MOUNT

Your mount can be attached to a dashboard or windshield.

Dashboard mount

Clean the surface to remove dust and other debris before attaching the mount to it.

- 1 Unscrew the holder knob on the back of the smartphone holder.
- 2 Place the smartphone holder over the dashboard mount's ball joint and tighten the holder knob to secure.

- 3 Remove the plastic cover from the mount's suction cup.

Note: If the suction cup on the bottom of the mount loses its adhesive, rinse it in warm water and let air dry.

- 4 Press the suction cup onto your dashboard or window, then press the suction lever down to secure the mount.
- 5 Connect the car charger to the micro USB port on the bottom of the holder, then plug the other end into your vehicle's cigarette lighter. The LED lights green, then fades until the LED turns off.

PRODUCT OVERVIEW

Dashboard mount with smartphone holder

Ball joint and holder knob

Air vent mount with smartphone holder

Air vent mount

Air vent mount

- 1 Unscrew the holder knob on the back of the smartphone holder.
- 2 Place the smartphone holder over the vent mount's ball joint and tighten the holder knob to secure.

- 3 Press the air vent release to open the vent clips, align the clips with your vent, then **stop pressing the air vent release** to secure the vent mount.
- 4 Connect the car charger to the micro USB port on the bottom of the holder, then plug the other end into your vehicle's cigarette lighter. The LED lights green, then fades until the LED turns off.

USING YOUR DASH MOUNT

Mounting and charging your smartphone

- 1 Loosen the foot knob on the back of the holder to raise or lower the mount’s foot, then retighten the knob to secure.
- 2 Press the release button on the side of the holder. The clamps open.
- 3 Place your smartphone in the holder and squeeze the clamps together tightly until your phone is secure. Make sure that:
 - Your phone is flush against the back of the holder.
 - The center of your smartphone is the aligned with the  symbol on the holder.
- 4 Check the charging indicator to make sure that the smartphone is receiving power. The LED should light solid green. Your phone charges until the battery reaches 100%, then stops.

Adjusting your mount’s position

Loosen an adjustment knob to reposition the mount, then tighten the knob to secure the mount’s position.

Caution: Do not adjust the mount’s position while driving or while the phone is in the holder.

- **Telescopic knob:** Extends the arm

- **Pivot knob:** Pivots the arm from side to side

- **Holder knob:** Rotates your phone

Removing your smartphone from the holder

- 1 Hold your smartphone and press the release button on the side of the holder. The clamps open.
- 2 Remove your smartphone.

TROUBLESHOOTING

PROBLEM	SOLUTION
Device not charging	• Make sure that your device is Qi-enabled. • Make sure that your dash mount is connected to your vehicle’s power port. • Make sure that your smartphone is in the center of the holder with the screen facing outward. • Remove your smartphone’s case. It may be blocking the wireless signal. • Turn on your vehicle.
LED is blinking red	• Wireless charging may not work if your phone has a thick case, if your phone case is made out of certain materials (such as metal), or an object (such as a phone grip) is attached to the back. • The mount is too hot to charge. Remove your phone and let it cool, then resume charging. • Your smartphone is not compatible with the Qi wireless charger.
Device charges slowly	• Your smartphone may charge more slowly with the wireless charger than a charging cable. This is normal behavior. • Make sure that your smartphone is positioned in the center of the holder.
Mount won’t secure to the dashboard	• Clean the window or dashboard and let it air dry before securing the mount. • If the suction cup on the bottom of the mount loses its adhesive, rinse it in warm water and let air dry.
Mount won’t secure to the dashboard	Try using your dash mount in different locations.

SPECIFICATIONS

Dimensions (H×W×D): .8 × 2.5 × 4.1 in.
(20 × 63 × 103 mm)

Weight: .4 lb. (.2 kg)

Input: 5V/2A or 12V/1.2A

Output: 10W maximum

Temperature range: 32°~104°F (0°~40°C)

Qi version: WPC 1.2.4

SAFETY INSTRUCTIONS

- Do not attempt to disassemble the product. It may result in short-circuit or damage.
- The product should be kept in a dry and ventilated environment. Do not store it in an area of high humidity and high temperature.
- Do not use organic solvent to clean the product.
