Dear Examiner,

This is to request a Class II Permissive change for FCC ID: 2APKO-WB05 originally granted on 06/23/2022 (date).

The change under this application is to update module's matching circuit and antenna gain. The matching circuit has added a 0 ohm resistor and a 0.2pF capacitor, which does not affect RF function.

I attest that the certified device will not be capable of ad-hoc mode operation outside of the grant conditions.

Sincerely,
