RE: FCC ID: KBCIX270-BT2022

During the course of uploading exhibits for this filing, a document was submitted that contained duplicate copies of several exhibits that needed to be held confidential. The individual files were uploaded correctly and confidential treatment was requested, but this one exhibit (file name *Test Report 03_0193 Model BT2022 part 2 of 2.pdf*, described as Test Report part 2 of 2) contains some of those same documents and needs to be removed. There is nothing in the document that needs to be retained for the filing, as all of the required exhibits were uploaded properly; therefore a replacement document is not necessary.

Your efforts in helping us resolve this issue are greatly appreciated.

Best regards,

Vicki Albertson
