Specifications

Model No.	L-WP-05A5-V2
Capacity	5000mAh/3.85V/19.25Wh
Type-C Input	5V3A,9V2.2A,12V2.0A
Type-C Output	5V2.4A,9V1.1A,12V1.0A
Wireless Output	5W , 7.5W ,
Transmission distance	≤3-6mm
Charging efficiency	≥75%
Size	108×70×8mm
Unit weight	≈ 120 G (NW)

Type-c and wireless charger output are not supported at same time

Standard accessories

Magnetic  
Wireless Power Bank

USB to Type-C cable

User Manual

FCC ID：2AYA9L-L-WP-05A5-V2

NOTE: This equipment has been tested and found to comply with the limits for aClass B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radiofrequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Warning Statements:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment shall be installed and operated with minimum distance 20cm between the radiator & body.
