RE: AMCO Automated Systems

FCC ID: G8JVRT04

After a review of the submitted information, I have a few comments on the above referenced Application.

1) It is not certain if the change of ID is being performed for both enclosures or one enclosure. Additionally, please label the photographs so as to show the original approved enclosure and the enclosure covered by the class I permissive Change.

Response: The change of ID would apply to both enclosures. Please see the revised photograph exhibit included with this response.

2) Please confirm that the enclosures do not contain any metal or conductive coatings.

Response: The enclosures do not contain any metal or conductive coatings.

Timothy R. Johnson
Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued. Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the sender.
