LGO-PRE-WHT, LGO-PRE-GWT,
User Manual V3.0

Features and Specifications

- Driver: 40mm
- Impedance: 32Ω
- Rated Power: 20mW
- Frequency Range: 20Hz-20KHz
- Sensitivity: 110dB+/-3dB
- Distortion: ≤1%At 1KHz
- S/N: ≥75dB
- Power Supply: USB, DC 5V≈1A
- Battery Capacity: 300mAh
- Battery Play Time: 10 hrs
- Battery Charging Time: 1.5 hrs
- Product Size: 182x180x78mm
- Product Weight: 200g

Package Contents

- **Wireless Headset IJOY LOGO**
- **User Manual**
- **USB to Type-C charge cable**
- **3.5mm aux-in cable with in-line microphone**

Charging the Headset

Before using the headset for the first time
Charge for at least 2 hours.

- Plug the Type-C cable into the port on the headset.
- Plug the opposite, USB end into the USB port on a computer or compatible AC adapter.
- The red LED will turn on to indicate that the unit is charging.
- Once fully charged, the red LED will turn to blue.

Basic Instructions

- To turn the headset on, switch power button to the right direction.
- The headset will prompt and blue LED will turn on.
- The blue LED will flash every second while playing music in Bluetooth or TF mode.
- Support battery indication icon on iOS & Android.

FCC STATEMENT :
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.
Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
