RE: Belkin Corporation

FCC ID: K7SF5D8001A

I have a few comments on this Application. Depending on your responses, kindly understand there may be additional comments.

- 1.) Please provide guidance as to which modes or data rates produced the "worst case" emissions or highest RF power output for each of the following: 802.11b; 802.11g; 802.11 MIMO; 802.11 MIMO + CB.
- 2.) Can the end user select countries or regions when setting up his wireless network?

William H. Graff
President and Director of Engineering

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
