

Board Antenna Specification

Type: Board Antenna

Customer: Revell

Manufacturer: Chengao Electronics Co., LTD

Address: Tangkeng Huangwuba new development Zone No. 2, 1st floor, Fengshun tow, Meizhou city. Guandong province.China

1 Antenna interior material

Materail	usable range	Remark
Copper sheet	12mil	pro-environment

2 Product performance

Specifications and dimensions

Name	Application	Spec.	Appearance
Board antenna	Circuit board conductor	See below	No surface damage, scratches Marks, oil stains and other defects

3 Performance

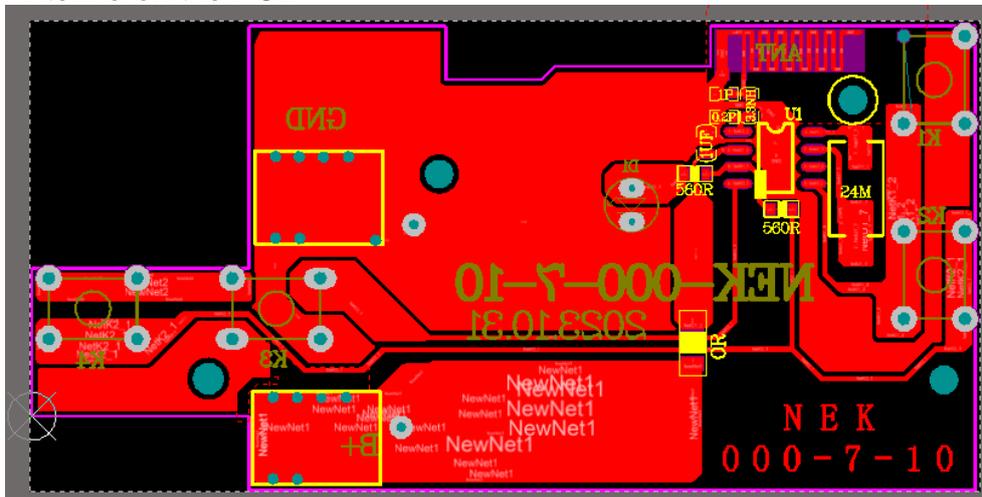

No.	Des.	Sstandard
1	Temperature	200°C

Frequency Range: 2.4GHz-2.8GHz

Antenna Type: PCB Antenna

Max Peak Gain: 2dBi

Antenna on the PCB

PCB antenna specification diagram and its parameters:

- A: The length is 3.6mm and the width 0.91mm
- B: The length is 4.48mm. The distance between A and B is 1mm
- C: The length is 3.04mm, the width is 0.3mm; The spacing between B and C is 0.3mm, and the other spacing is 0.3mm
- D: Length 1.39mm, width 0.3mm.
