PACCAR wireless charging controller

## 1.Compatible Devices:

The PACCAR wireless charging controller can perform up to 15W wireless charging for phones that meet Qi1.3.3 (10W for Samsung phones, 7.5W for phones). Wireless charging up to 5W for phones that do not meet the Qi1.3.3 protocol but have a receiving coil.

## 2.Specification:

Product name	PACCAR VWCT	Model	600608430
Product Size	130*80*16 mm	WPC Version	Qi1.3.3
Input	9~16V	Output	EPP & BPP

Matters needing attention:

- ① Please do not place metal debris or magnetic cards on this product as it may cause damage or abnormal charging.
- ② Do not forcefully pull the charging cable to avoid the power cord breaking or falling off.
- ③ Please do not disassemble or put this product into fire or water by yourself to avoid short circuit and leakage.
- ④ Do not use this product in severely high-temperature (more than 85°C), humid, or corrosive environments to avoid damaging the circuit and causing leakage.

## 3.FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two condition: (1)This device may not cause harmful interference, and (2)This device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the installations, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

FCC RF exposure statement:

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20 cm the radiator your body
