Columbia, Maryland 21046

Subject: Class II permissive change request for FCC ID: TFB-1003

To whom it may concern

Laird Technologies wish to submit a Class II Permissive Change for Limited Modular Approval to demonstrate that FCC human exposure requirements have been complied with when the Laird 450-015 module is integrated into the Guided Knowledge GK001

No hardware modifications have been required to the original Laird 450-015 module as EMF compliance is met through low duty cycle of operation as discussed in the Operational Description.

Yours Sincerely

Charlie Blackham
Director
