Attention: Mr Kevin Hall

6th June 2006

Dear Sir,

Application for Grant of FCC Equipment Authorization-LT Base Station PJ5-LTB

We hereby declare that the Raymarine LT Base Station, part Number A18130, FCC ID PJ5-LTB, is a component part of the Raymarine LifeTag Wireless MOB System, Part Number E12185. This system as sold comprises two LifeTags, Part Number E15026, FCC ID PJ5-LTT and a LT Base Station, Part Number A18130, FCC ID PJ5-LTB. However, a working system may utilize up to sixteen LifeTags and, for larger vessels where the normal range of operation is insufficient, a second LT Base Station may be installed and configured to act as a wireless router with the sole function of retransmitting data from out-of-range LifeTags to the first LT Base Station.

An explanation of operation of the LT Base Station as a router is given in the Technical Description, and configuration information is given in the user documentation.

Sincerely,

A handwritten signature in black ink, appearing to read "P. Bowen", with a stylized flourish at the end.

Peter Bowen,
EMC Team Leader,
Raymarine UK Limited
