

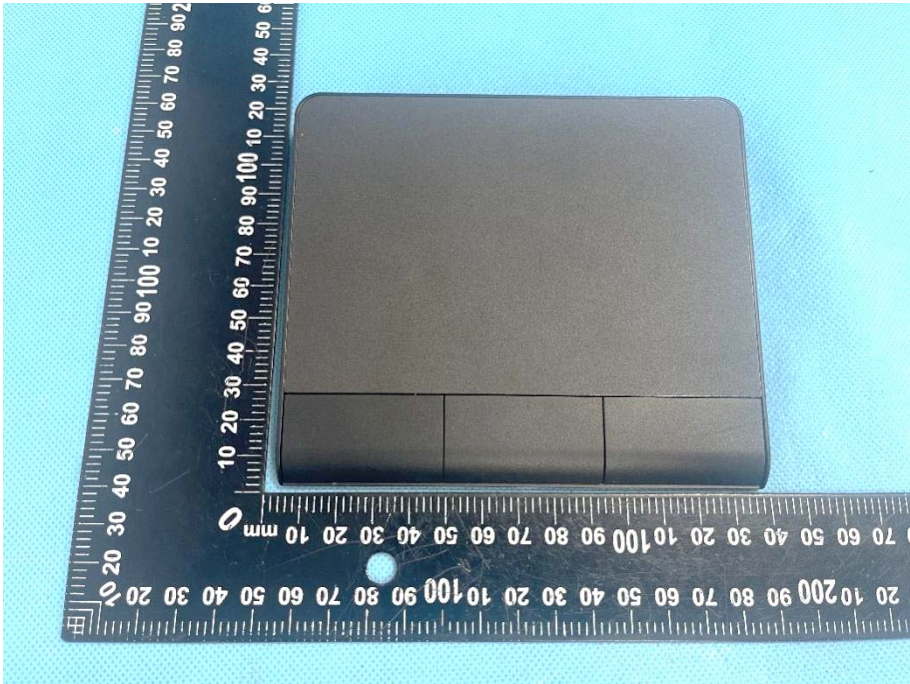

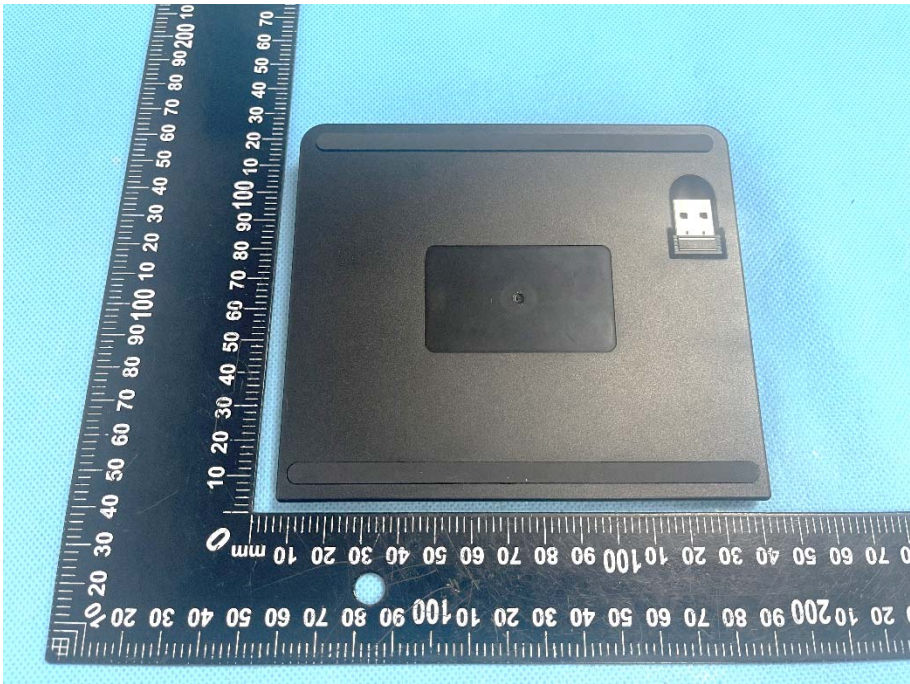

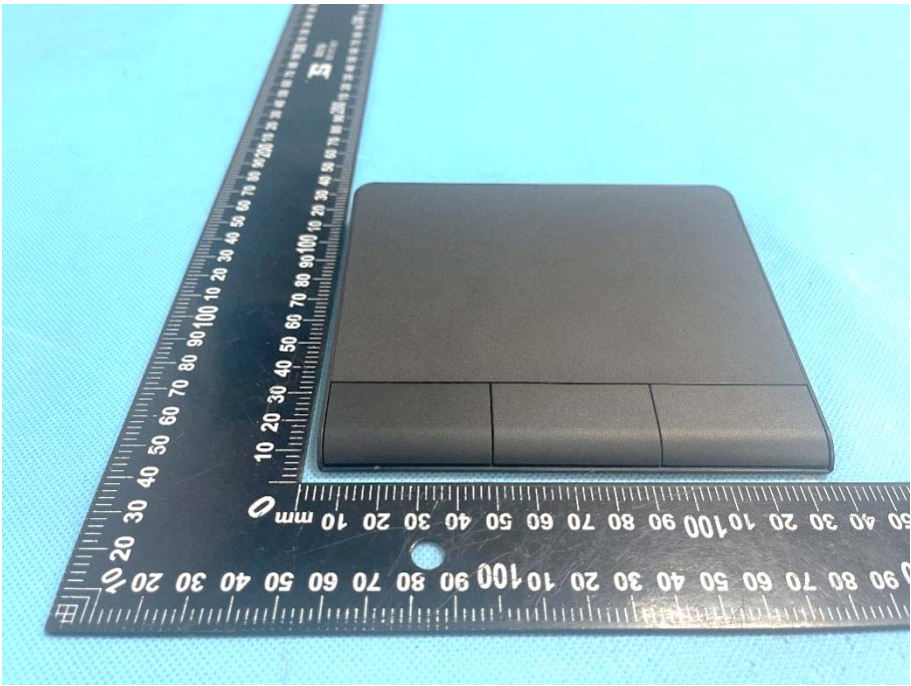

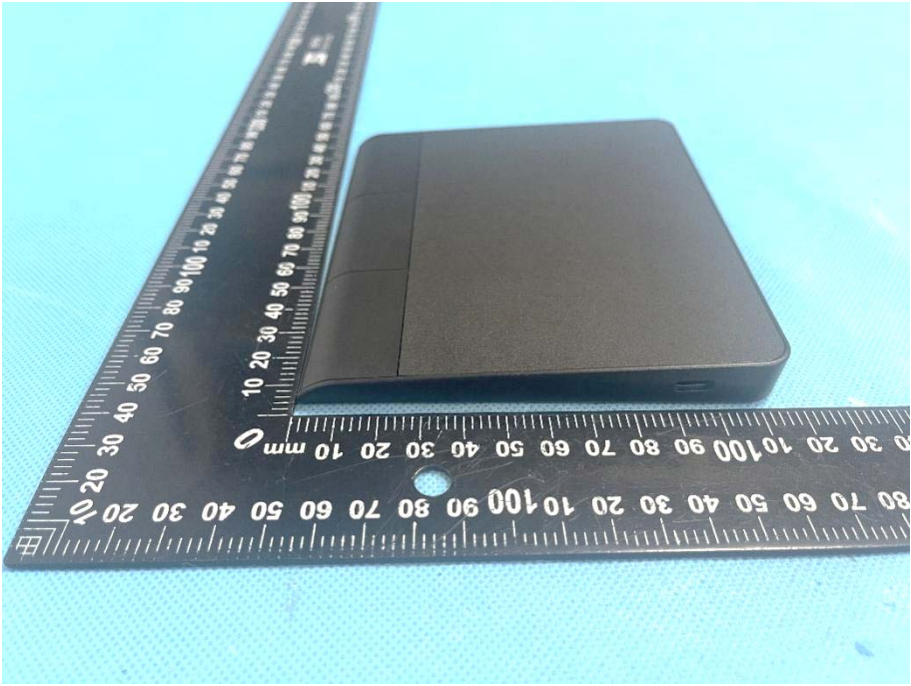

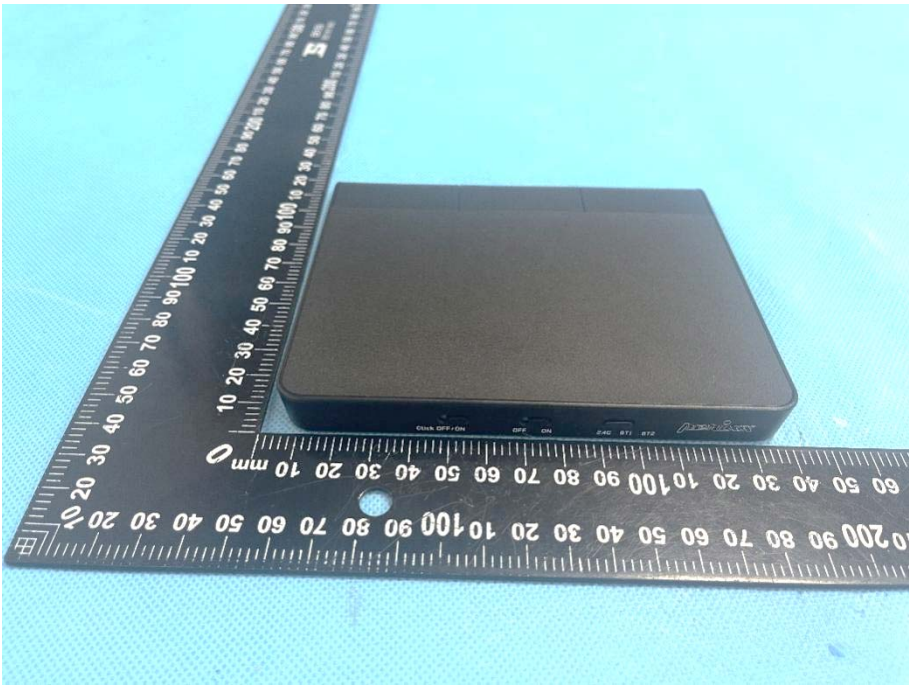

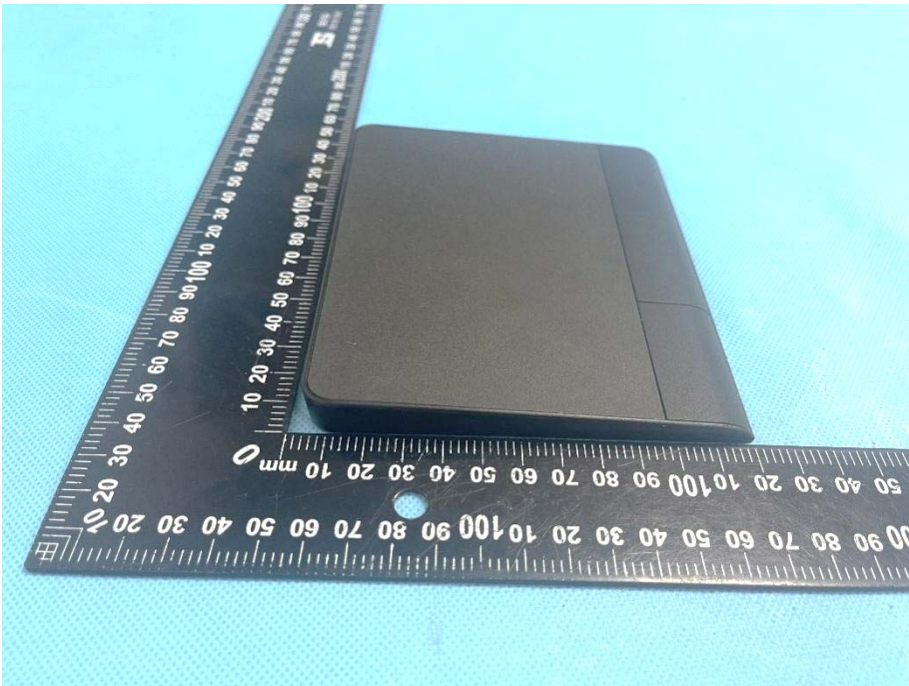

EXHIBIT 2 - EUT EXTERNAL PHOTOGRAPHS

EUT View 1	
EUT View 2	

EUT View 3	 A black rectangular device is shown from a top-down perspective, resting on a light blue textured surface. A black L-shaped ruler is placed next to it for scale. The ruler's vertical edge is on the left, and the horizontal edge is at the bottom. The device is positioned to the right of the vertical ruler edge and above the horizontal ruler edge. The device has a smooth, matte finish and a slightly rounded top edge. The ruler has white markings in millimeters and centimeters.
EUT View 4	 A black rectangular device is shown from a top-down perspective, resting on a light blue textured surface. A black L-shaped ruler is placed next to it for scale. The ruler's vertical edge is on the left, and the horizontal edge is at the bottom. The device is positioned to the right of the vertical ruler edge and above the horizontal ruler edge. The device has a smooth, matte finish and a slightly rounded top edge. The ruler has white markings in millimeters and centimeters.

EUT View 5	 A black rectangular device is shown from a top-down perspective, resting on a light blue textured surface. A black L-shaped ruler is placed next to it for scale. The ruler has white markings in centimeters and millimeters. The device is positioned horizontally, and the ruler is placed vertically to its left and horizontally below it. The device has a smooth, matte finish. The ruler's horizontal scale shows the device is approximately 100 mm wide. The ruler's vertical scale shows the device is approximately 50 mm high.
EUT View 6	 A black rectangular device is shown from a top-down perspective, resting on a light blue textured surface. A black L-shaped ruler is placed next to it for scale. The ruler has white markings in centimeters and millimeters. The device is positioned horizontally, and the ruler is placed vertically to its left and horizontally below it. The device has a smooth, matte finish. The ruler's horizontal scale shows the device is approximately 100 mm wide. The ruler's vertical scale shows the device is approximately 50 mm high.
