

External photos of Ramac/GPR X3M and EasyLocator units and 100 MHz unit.

Figure 1. An X3M unit. An EasyLocator has identical connectors but different colour and label.

Figure 2. EasyLocator mounted on antenna with wheel and pulling handle.

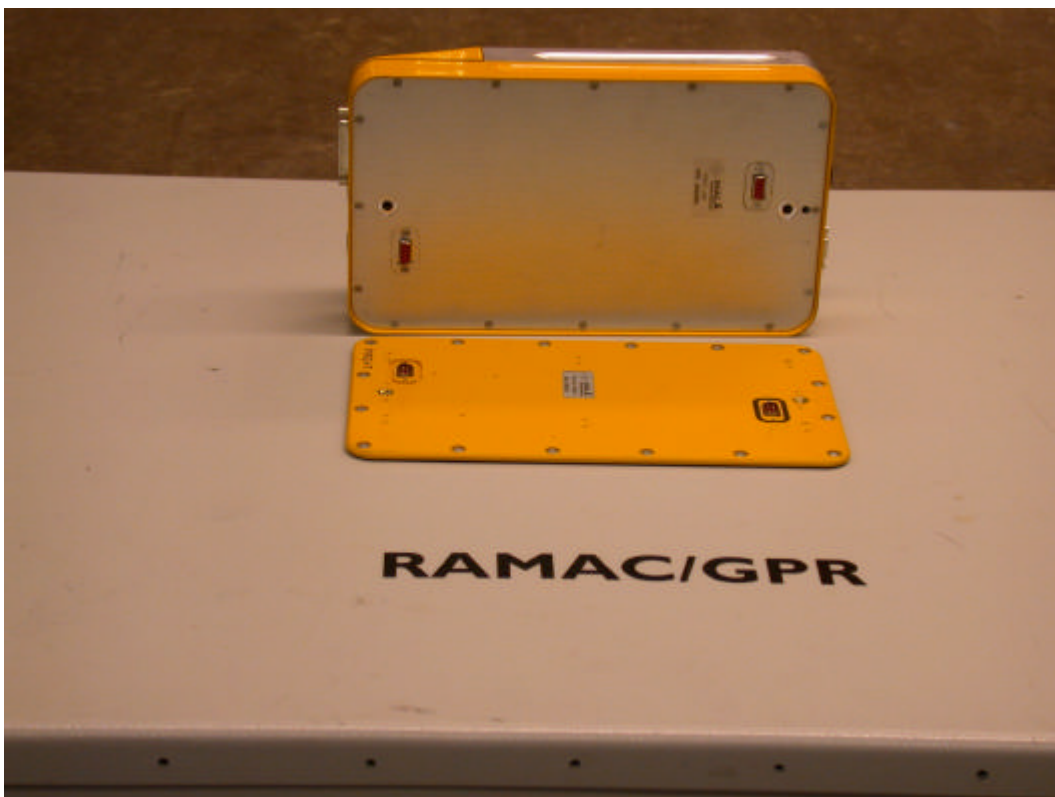

Figure 3. Overview of antenna connectors located on the bottom side of the X3M/EasyLocator and topside of antennas.

Figure 4. A 100MHz shielded antenna

Different ways of using the X3M/EasyLocator. Towing the antenna with a handle, mounting the system on a Trolley and pulling behind a vehicle

Figure 10. Different ways of using the system.
