

Muse iQ R Wireless Hearing Aid Antenna description

The Muse iQ R Wireless Hearing Aid (Model Muse iQ R, A4 iQ R, Start iQ 1200 R, Start iQ 1000 R, AGXsp iQ R, and Summit iQ R) utilizes a proprietary Starkey designed integral (non-removable) loop antenna soldered in the case of the device, with a maximum antenna gain of -21.4 dBi. The internal Starkey product code is MWRA. No other commercial antenna can be utilized with the Muse iQ R wireless hearing aid because of the unique shape and unique internal connection points. Fig.1 shows a picture of the antenna.
