# Labeling Infos

Example below is valid only for devices which are subject to Part 15 Certification Procedure <u>and</u> DOC procedure in USA and subject to RSS-210 Certification in Canada.

The text „ This device complies..." may be placed in the user manual only if the device is too small to show the text on the label.

USA:
FCC ID: <Grantee><EPC> is the certification number
<Grantee> is the Grantee code, made of 3-5 alphanumeric characters (A-Z, 0-9), assigned by FCC.
<EPC> is the Equipment product code (EPC) assigned by the applicant. Minimum of 1 character and maximum of 14 characters and may consist ONLY of capital letters, Arabic numerals or combination thereof, the hyphen or dash (-). Applicant should assign the least number of characters that will adequately identify the product.

Canada:
IC: <CN>-<UPN> is the certification number;
<CN> is the Company Number (CN), made of at most 6 alphanumeric characters (A-Z, 0-9), assigned by Industry Canada;
<UPN> is the Unique Product Number (UPN), made of at most 11 alphanumeric characters (A-Z, 0-9) assigned by the applicant. Permitted alphanumeric characters used in UPN are capital letters (A-Z) and digits (0-9). Other characters, such as "#", "/" or "-", shall not be used.

Additionally the PMN must be placed either on the product label, the packaging or the user manual.
