Bluetooth matching steps 1

- 1.Please keep as close as possible from Bluetooth headphone to mobile phone (or other connecting devices) within 1 meter.
- 2.Make sure the headset in the off state, press the multifunction key for about three seconds until the red / blue lights flash alternately, it enters into the pairing state, waiting for a connection;
- 3.Open the user's mobile Bluetooth function and search or scan, which will find all Bluetooth devices. Then click the headphone name MINISO-H21 and enter code 0000. After connected successfully, the headphone will turn to blue light blinking which means finishing matching. Now you can listen to music and take a phone call.

Warm Prompt:

- 1.Mobile already matched will not need to match again, the headphone will automatically match the previous device and make connection.
- 2.Some phones after matching connection, still need to choose headphones service function. If the cell phone bluetooth version is 2.1 or higher, when matching, you don't need to pair password (0000).
- 3.The maximum of matching time is 240 seconds. If you exceeded the time it will exit the matching status. If you still can't match successfully, Please repeat the pairing procedure to connect again.
- 4.The headphone will automatically shut down when it isn't connected over 6 minutes.

Bluetooth matching steps 2

Matching 2: One with two function(connect two bluetooth devices at the same time)

1. Ensure the headset has already connected the first mobile phone(in connection status)
2. Long press the multifunctional button to enter matching status again(red/blue light alternately flashes). Start the Bluetooth function on the other cellphone and search for Bluetooth devices. Choose MINISO-H21 to match and connect(refer to the matching steps 1)
3. Restart the Bluetooth function of the first cellphone and connect MINISO-H21 with connection memory. Then the headphones have already connect two cellphones simultaneously and start the one with two function.

Steps of connecting computer

First download a universal driver software.Installed successfully , you will have a little gray icon (Bluetooth icon) in the bottom right corner of your computer. Then plug in the Bluetooth adapter, at this time, the gray Bluetooth icon will turn to blue. Note: notebook computer with Bluetooth function does not need external Bluetooth adapter, which needs to buy separately. Right click on the (bluetooth icon), select "show the classic interface" When the bluetooth headset turned off, long press the multifunctional key, until red and blue lights flashes alternately (matching), headset has entered the being searched state at this time
Right click on the computer interface, select the "search" equipment, the headset must be in pairs (red and blue lights flash alternately), then the computer will search for all nearby bluetooth devices. Double-click the computer and search for MINISO-H21 bluetooth headset. Right-click the MINISO-H21 and select "bluetooth high quality audio", enter the password "0000" (0000 initial password). Here, congratulations, bluetooth headset has been successfully connected with computer, and now you can listen to the music and have a voice conversation!
