product specification

Product Name	Smart Silicon MeshLight Type
Item No.	F11613
Size/Weight	104*128*154mm/226g
Material	Silicon, ABS, PVC
Rated voltage	5V / 1A
Rated current	120mA
Battery capacity	1000mAh
charging time	about 2 hours
Usage time	about 12 to 15 hours
Connectivity	Product Type: C-usb(Bluetooth) manual
Country of Origin	China
Date of manufacture	2023.11
Certificate number	K010866-18003
Electromagnetic compatibility number	R-R-DC-45-53M6
Manufacturer's Name	WITCSD(Gyeonggi) Trading Co., Ltd
Importer	Witcon / JSC, 25, Jeongang-daem(Nongseong-ro, Seoul
Batter	KakaoCommerce corp / A/S 680, Daejeong-gangseo-ro, Bundang-gu, Seongnam-si, Gyeonggi-do, Republic of Korea
Customer Service Contact	(042)237-4243
Exchange Place	Place of purchase

Cautions

1. Do not use the product for anything other than its original purpose.
2. Do not submerge it (disassemble, modify, or repair the product).
3. Do not use in very cold or hot places, humid and dusty places.
4. Prohibit use in objects and regions with strong magnetic forces that can cause instrument malfunctions.
5. If water enters the unit, turn off the power immediately, wipe the outside water, dry it completely in a well-ventilated place.
6. Make every effort to charge the product the correct voltage. Damage, use of cables, and changes are caused by a failure, which cannot be exchanged or returned.
7. The use of high-power charging cables and chargers may cause overheating or malfunctions.
8. Please be careful not to use it by children.

Product Warranty

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

- 2) Free service information.
Within 30 days from the date of purchase, if abnormality occurs under normal use, within 30 days from the date of purchase.
For products that are found to be defective, the product itself will be replaced with a new product.
However, it applies only when you bring the product warranty and receipt, and it does not apply in the following cases.
- Appearance damage and contamination
- After the product is disassembled, modified, or used for other purposes
- Product failure or damage due to natural disasters (earthquake, fire, flood, etc.)
- Failure or damage due to the user's carelessness or failure to comply with the specified precautions
3) Information on paid service
In the event of a failure or damage within one year of the purchase date, we will only exchange the product for a service charge (including postal charges) if you have a warranty and receipt.
Paid service is available only if both the product and the included components have been shipped.
The client uses the paid service for damage or contamination of the appearance caused by use.
- Parts such as cables and product are consumables, so they are not covered under warranty.
Additional shipping costs may be incurred in related materials areas.
- If the product is not repaired, the product will have the return shipping cost.

Exchange and Return Regulations

- Purchaser's simple change is possible within seven days of receipt of the product, and you must carry the receipt without damaging the packaging.
- * If exchange and return are not possible
 - In case the product is damaged or lost due to your carelessness
 - If the product packaging is damaged and the product value is reduced.
 - In case there is evidence of use of the product or the product is damaged.
 - In the event of loss or damage to the accessories contained in the product.
 - * This product is manufactured and shipped as a complete product, and A/S is not available, and only exchange and return are permitted.

FCC Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is advised to make the following corrections.

- *Increase the separation between the equipment and receiver.
- *Connect the equipment into a outlet on a circuit different from that to which the receiver is connected.
- *Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure condition without restriction.
