

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

**EUT Housing and
Board View 1**

**EUT Housing and
Board View 2**

EUT Housing and Board View 3	 A photograph showing the back of a circular electronic unit (EUT) with its clear plastic housing. The unit is placed on a blue textured surface next to a black L-shaped ruler. The ruler has white markings in millimeters and centimeters. A black cable is connected to the back of the unit.
EUT Housing and Board View 4	 A photograph showing the disassembled components of the EUT. The clear plastic housing is on the left, and the circular metal back plate is on the right. Below them is the black printed circuit board (PCB) with various electronic components. A black cable is also visible. The components are placed on a blue textured surface next to a black L-shaped ruler with white markings.

Solder Board-Component View 1	 A photograph showing the top view of a small, dark, rectangular electronic component with rounded corners, mounted on a blue textured surface. The component has various surface components, including a large square chip with the markings '383', '112', and '211'. A black L-shaped ruler with white millimeter markings is placed next to the component for scale. The ruler's vertical scale ranges from 0 to 100 mm, and the horizontal scale ranges from 0 to 100 mm.
Solder Board-Component View 2	 A photograph showing the bottom view of the same electronic component. The underside is dark and populated with numerous small, gold-colored solder pads or components. The same black L-shaped ruler with white millimeter markings is used for scale, showing the component's dimensions relative to the ruler.
